**DETAILED ACTION**

1. Claims 1-30 are allowed.

**Information Disclosure Statement**

2. The information disclosure statements (IDS) submitted on 1/2/2004 and 3/7/2005 are in compliance with the provisions of 37 CFR 1.97. Accordingly, the information disclosure statements are considered by the examiner and signed and initial copy of PTO-1449 is provided herewith.

3. The following is an examiner's statement of reasons for allowance: the prior art of the record teaches an industrial controller receiving signals from electrical sensors and transmitting them to control circuits or actuators; however, the prior art of the record particularly fails to teach or fairly suggest in combination with the other elements and features of the claimed invention regarding claims 1-30, a safety industrial controller and a method of operating a safety industrial controller, comprising: transmitting signals to logic circuitry before a first worst-case delay; logic circuitry receiving the input signals from the input circuits to create at least one output signal based on the input signals and transmitted to an output circuit before a second worst case delay; and output circuit receiving the output signal from the logic circuitry to output the output signal to an
